

Project: Apartment Blocks, Bristol Riverside			
Status:	Ongoing <input type="checkbox"/>	Complete <input checked="" type="checkbox"/>	Other <input type="checkbox"/>
Summary:	Completion of foundations and drainage, finishes including paving, kerb and surface water drainage. Making up levels to site and works to make the building watertight.		
Sector:	Housing		
Services:	Completion of foundations and drainage, finishes including paving, kerb and surface water drainage. Making up levels to site and works to make the building watertight.		
Client:	Mid Group		
Main Contractor:	Mid Group		
Start Date:	June 2021		
Location:	Bristol		
Value:	£750,000		
Scope of Works:	The foundation and below ground drainage had already been partially carried out by others and the building superstructure had already commenced prior to attendance on site. A large area of paving of various specifications and sizes is to be installed across the site however needs to be done in coordination with other trades on a site with limited space for both working and material storage.
